# Swag for Good: Environmental and Social Impact

## Eco-Friendly

We're constantly expanding our extensive relationships with sustainable product suppliers and brands engaged in environmental causes. For every eco-friendly client product order, we plant 10 trees through One Tree Planted, the charity dedicated to global reforestation.

## Giveback

We proudly champion suppliers whose day-to-day business practices include contributing to social impact causes. From clean water initiatives to nonprofits active in Africa and Haiti to organizations addressing child hunger in America, our partners are making a difference.

## Underrepresented

We're committed to supporting underrepresented communities by showcasing brands with BIPOC, AAPI, LGBTQ, and female owners and leaders. As an employee-owned company that's 70% female and 49% people of color, CreativeMC sees diversity as who we are, not an initiative.

EMERGING BRAND

**nodpod**®

One of the hottest brands of the past year, Nodpod was created behind the science of applying gentle pressure along the body to relieve stress and anxiety while promoting healthy, deep sleep. Aside from the beloved products, Nodpod's playful approach to colors and packaging will give your brand a refreshing pop.
