Burst out of your bubble.

Holiday 2023 ushers in the next wave of the post-COVID era: Liberated from insularity, we eagerly embrace human connection and unfiltered self-expression. And yet the uneasy age of AI also leaves us sifting for fakery. It's *maximalism at its sincerest*, in this season's trends!

72% of the products featured in this lookbook positively impact minority communities, social causes and/or the Earth, reflecting our ongoing initiative to source and showcase Swag For Good!

Eco-Friendly

Products that are beneficial or not harmful to the environment. Many of our partners are also members of 1% for the Planet.

Social Giveback

Brands that contribute a portion of profits the social causes and/or are committed to ethically sourced materials.

Underrepresented

Companies owned or led by an executive from an underrepresented community, including BIPOC, AAPI, LGBTQ+, and women.

More Colors

The product shown is in a color that reflects this trend but is also available in additional colors.

Price Point

Price ranges indicated are from:

\$ = \$1-\$30

\$\$ = \$31-\$75

\$\$\$ = \$76-\$150

\$\$\$\$ = \$151+

HOLIDAY 2023

SUPER

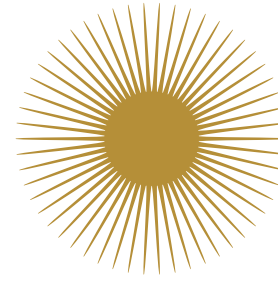

Let your flashy flag fly (literally)!

This avalanche of sparkle is equally radiant and enchanting, so why not embrace the extravagant and glamorous edges of your brand? 'Tis the season to go glitzy!
